

Industrial Internship Report

Prepared by: Meghana Nimmala

This report summarizes the industrial internship undertaken by Meghana Nimmala.

Projects Undertaken:

1. Smart City Traffic Patterns Analysis using Machine Learning
2. Multi-stage Continuous-Flow Manufacturing Process Optimization

These projects offered valuable insights into real-world problem solving, machine learning applications, and industrial data-driven decision-making.

The internship was facilitated by upskill Campus and The IoT Academy in collaboration with UniConverge Technologies Pvt Ltd (UCT).
